“ We remember Mike as a dedicated family man, who would find any way to support the ones closest to him. He had an entrepreneurial spirit and was kind and supportive to Tom when he was first starting out as a chiropractor. Our fond memories include backyard slip ‘n slides in the summer, fireworks & home made ice cream at 4th of July. Thanksgivings & Christmases with the families documented by extended-family holiday photos. He lent us his camcorder when our first child was born - expensive and not that common in 1986! Mike was a positive presence in the world and will be missed by many. Our hearts go out to his family.
